No worries. I didn't think I needed to address this now. I was just online doing something else and thought I would lose my train of thought if I didn't write up a response while I was thinking about it.

Have a good night.
Debra

Deb

I am so sorry for sending my email out without say do not respond until during the week. I usually do but did not this time.

Please understand I send things out just to catch up but do not expect folks to respond. Why are you checking work emails tonight anyway?

Regardless thank you for the update. Have the meeting as planned. We will see when the meeting the House Ag will be scheduled and do our best.

Hi Mike,

rMarion is out of the office until Wednesday.

We do have a meeting scheduled for the aldicarb team (HED/EFED/RD/PRD/BEAD) for Thursday (9/5/19) to discuss the EFED water modeling of the proposed new uses Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP) ...and how a to proceed with this action.

I can provide more details after the meeting on Thursday; however, I can see if I can get initial numbers from EFED and HED to draft something earlier (tomorrow)?

Let me know what you need.

Thanks.

Debra

Marion

Not sure when this will be scheduled this week.

Can we get a 1-pager on the status of this action please.

I brought it up during our generals with HED/EFED to try and prioritize it.

Subject: House Ag Inquiry Re: Aldicarb on Citrus

Aldicarb Team – Jeremy Witte of House Ag was not able to be on the call on Fri (citrus and antibiotics) and asks for a call regarding AgLogic's application to add the use of aldicarb on oranges and grapefruit to the label, with a PRIA due date of June 2020. Availability for a call during the week of Sept 3? Thanks,
Sven

Thanks for this, Sven.

I've also reached out to the registrant with questions. I understand there is a desire to push that PRIA date up so that a decision could be made in time for growers to plan for the 2020 growing season. Understand that it still has to go through the process and evaluation, but I know it would benefit the growers to have an answer sooner, whether it's a registration approval or denial so that folks can look for other options. What would it take to move the PRIA date up to the end of this year?

-Jeremy
